## **PUTTING THE 90Z<sub>3</sub>-E TO WORK**

Like all Kawasaki loaders, the 90Z<sub>3</sub>-E has a 35-year heritage of strength and reliability. With dual pilot-assisted hydraulic controls, automatic powershift transmission and low-effort steering, the 90Z<sub>3</sub>-E is designed to turn out the work.

The 90Z<sub>3</sub>-E comes equipped with an 4.0–5.0 cubic yard bucket with a bolt-on cutting edge. Simultaneous roll-back and lift operations can be performed with the bucket control lever for smooth, efficient bucket loading. Ride Control significantly reduces vibration for improved stability while reducing operator fatigue.

The outboard-mounted, four-wheel sealed wet disc brakes are designed for long life and easy access and overhaul. Standard spin-on filters, remote mounted grease fittings and oil drain simplify maintenance. The standard 26.5 x 25-20PR (L3) tires and optional L4 and L5 tires use heavy duty three-piece rims for easy servicing in the field.

## **UNMATCHED SUPPORT**

Kawasaki maintains a large inventory of new components to ensure outstanding parts availability and minimal downtime. In addition, a predictive oil analysis program helps eliminate unnecessary maintenance and helps find problems before they occur. Kawasaki also stocks an array of cost-effective rebuilt components.

## **BUILT TO STAY ON THE JOB**

Kawasaki loaders are designed with the durability to provide years of service. Backed by a dealer network of heavy equipment experts and a dedicated support staff in the Kawasaki parts and service organization, your investment in a Kawasaki loader is an excellent choice that will pay dividends for years to come.
